DM/17/3776 Demolition and replacement of Moatlands (a 10 bed House near Gravetye Manor)

The Gardens Trust (The GT) - formerly the Garden History Society (GHS) - is a statutory consultee on matters concerning registered parks and gardens, and is now working closely with County Garden Trusts, such as Sussex Gardens Trust (SGT), with regard to commenting on planning applications.

Representatives of Sussex Gardens Trust have carefully considered the documents submitted with the above application. The design of new house takes account of its surroundings, the materials are both traditional and innovative and it brings the gardens and wider aspects of the registered area into an integral part of the scheme. Sussex Gardens Trust therefore supports the application.

Kind regards

Jim Stockwell
on behalf of Sussex Gardens Trust
